

## Alpine Road Flood Mitigation (Lewis CD)

Program	Water Quality Implementation
Lead Implementer	Lewis Conservation District
Funders	Idaho Transportation Department, Idaho Water Resources Board, Prairie Highway District
Other Organizations	Idaho Soil and Water Conservation Commission
Project Primary Contact	Karol Holthaus (Lewisscd@outlook.com)
Project Stage	Completed
Duration	2021

### Natural Resource Projects & Practices ➤ Water Quality Implementation

The objective of the project is to address the high flows that damage the roads and transport sediments to the Clearwater River at the Alpine Road intersection in the upper reaches of Sixmile Creek, a small tributary to the Clearwater River. The Prairie Highway District and the Idaho Transportation Department (ITD) will partner with the Lewis Soil Conservation District (LSCD) to resize culverts and align them to pass flood waters without overtopping.

#### Key Accomplishments

- Engineering Designs Produced: 1
- Structure For Water Control (number): 3

#### Project Themes

- Healthy Watersheds
- Water

Installation of culvert  
Credit: Prairie Highway

#### Location

#### Expenditures

Expenditures by Funding Source to Date: \$78,275.00
